Assets

Proactivity and participation

I like to feel that I am part of the the project, not only who develop it.

Leadership

I really like to being a reference, teaching and support my coworkers.

Team working

I like to achieve goals together and enjoy the road to success.

About me

Hi, I'm Felix. I'm a System Engineer from Caracas, Venezuela. I'm 26 years old and I have been working as a React Developer since 2019. I'm able to describe myself for being really honest, detailed, responsible and active in terms of work. I'm into doing things well. I consider myself as a person who never gives up, I always try to overcome the obstacles and I try to stand out from others. I always try to help, support and learn from my coworkers to keep growing as a professional and as a human being.
